12. Specifications as to ecology

Persistence and degradability:

Degradation of surfactants

The surfactants contained in the products are primary biodegradable to at least 96 % on average

The biodegradability of the surfactants contained in the product is in accordance with the requirements of the EU Detergent Regulation (EC/648/2004)

Ultimate biodegradation:

The material is degraded quickly. All individual organic components in the product are, with at least 6=% BOD28/COD in the Closed Bottle Test or with at least 70% DOC removal in the Modified OECD Screening Test, readily biodegradable according to the OECD classification

National regulations/information(Germany)

WGK: WGK=1, low hazardous to waters product. Classification according to the mixture rules in German V w V wS regulation annex 4 from July 2005

13. Disposal Considerations

Product disposal:

Dispose of according to regulations.

Waste code (EWC)

The valid EWC waste code numbers are source-related. The manufacturer is therefore unable to specify EWC waste codes for the articles or products used in various sectors. The EWC codes listed are intended as a recommendation for users. We will be happy to advice you.
